

Better Not Get Dyspepsia

If you can help it. Kodol prevents Dyspepsia, by effectually helping Nature to Relieve Indigestion. But don't trifle with Indigestion.

A great many people who have trifled with indigestion, have been sorry for it—when nervous or chronic dyspepsia resulted, and they have not been able to cure it. Use Kodol and prevent having Dyspepsia.

Everyone is subject to indigestion. Stomach derangement follows stomach abuse, just as naturally and just as surely as a sound and healthy stomach results upon the taking of Kodol.

When you experience sourness of stomach, belching of gas and nausea, fluid, bloated sensation, gnawing pain in the pit of the stomach, heart burn (so-called), diarrhoea, headache, dullness or chronic tired feeling—you need Kodol. And then the quicker you take Kodol—the better. Eat what you want, let Kodol digest it.

Ordinary peptic "dyspepsia tablets," physics, etc., are not likely to be of much benefit to you, in digestive ailments. Peptic is only

a partial digester—and physics are not digesters at all. Kodol is a perfect digester. If you could see Kodol digesting every particle of food, of all kinds, in the glass test-tubes in our laboratories, you would know this just as well as we do.

Nature and Kodol will always cure a sick stomach—but in order to be cured, the stomach must rest. That is what Kodol does—rests the stomach, while the stomach gets well. Just as simple as A, B, C.

MUZZLE OF A BANDIT'S GUN

Was Suddenly Faced By Texas Bank
Cashier and \$6,100 in Bills Was
Seized By Robber.

Ft. Worth, Tex., June 23.—Alone and unmasked, a robber walked into the branch of the Waggoner Bank and Trust Co., at Fourteenth and Main streets, in the heart of the business section of the city, Tuesday afternoon, and, covering Cashier Walter G. King with a revolver, seized \$6,100 in bills, backed out of the door still covering the cashier with his gun, climbed into an automobile and made good his escape. For daring boldness the crime is unequalled in the annals of the state.

The bank had just closed for the day and King was alone in the office checking up his cash. The outer door was open, and the entrance of the stranger was unnoticed by King until he looked up at the words, "Keep still!" When he raised his eyes it was to look squarely into the barrel of a big pistol and the determined face of the unknown.

Having secured all the cash in sight, he slowly backed away from the window with gun still covering the cashier and disappeared into the street.

No one paid any particular attention to the man as he reached the sidewalk, brushing through the crowds of pedestrians which were passing, getting into an automobile. He had just started the machine when King reached the door and shouted: "Stop that man!" Starting with a jerk, the machine lurched up the street for a half block, followed by an excited crowd, turned a corner and was gone.

The police were immediately notified and every available man was put on the case, but up to a late hour no reports have reached the police which lead to hope of an arrest.

The loss to the bank has covered by insurance, but the bank has offered a reward of \$1,000 for the apprehension of the criminal.

Mrs. Howell turned to run, but was shot down, falling on her husband's body. The Howell boy was not wounded.

The negro fled and is now being chased by hundreds of citizens, with bloodhounds. It is said that he is surrounded in a swamp near the scene of the tragedy. It is openly stated that he will be lynched.

THE TENNESSEE REVERSAL.

The Supreme Court has reversed and remanded the case of eight men convicted at Union City of alleged murder of Capt. Quentin Rankin, at Reelfoot Lake, about a year ago. The court did not pass upon the guilt or innocence of the accused, but reversed upon the ground that there was not a fair trial.

The higher court held, that the grand jury, which found the indictment, was illegally drawn, in that it was selected from a panel named by the presiding judge instead of by three members of the County Court; and that the court also erred in depriving each of the accused of his constitutional right to challenge veniemen. The eight men were tried under a joint indictment, and the State's counsel contended that being jointly indicted they were entitled to only 24 challenges, which would apply if only one man was on trial. The trial judge sustained this contention.

The case now goes back to be tried in accordance with the findings of the appellate court, and under the circumstances the outcome is problematical. On the trial in the lower court the fear was expressed by many law-abiding citizens that a jury could not be found to convict. This fear seems to have been felt by the State, hence the extraordinary and unusual methods in the selection of the grand and petit juries.

On a trial under the regular forms the accused may or not be convicted, but that some one or all of them is guilty of the Rankin murder is generally believed, and if after a fair trial, either or all should be adjudged guilty it is not likely they will escape punishment.

The result of the appeal is but another evidence of the unwisdom of hurried trials of men accused of crime in times of great popular excitement. It is far better for the courts to await the return of reason and then rule absolutely in accordance with constitutional provisions. —Nashville American.

In the hope of capturing Leon Ling, the accused slayer of Elsie Sigel, the New York police have cabled to several cities on the Mediterranean coast and to points through the Suez Canal and Indian Ocean to hold up the German steamship Helene Rickmers and search it for the fugitive. Information is almost conclusive, the police say, that Ling shipped from Philadelphia between June 10 and 12.

LIFE 100,000 YEARS AGO.

Scientists have found in a cave in Switzerland bones of men, who lived 100,000 years ago, when life was in constant danger from wild beasts. To-day the danger as shown by A. W. Brown of Alexander, Me., is largely from deadly disease. "If it had not been for Dr. King's New Discovery, which cured me, I could not have lived," he writes, "suffering as I did from a severe lung trouble and stubborn cough." To cure Sore Lung's Colds, obstinate Coughs, and prevent Pneumonia, is the best medicine on earth. 50c and \$1.00 Guaranteed by Chas. C. Davis. Trial free, bottle.

GAME FISH DISAPPEARING.

Fishermen and anglers along Winnebago Lake are alarmed over the great decrease of game fish in Lake Winnebago and the Fox river. For years these waters have been regarded as among the greatest fishing reserves in the country. Now game fish are scarce and the once great fishing industry carried on in Winnebago, Calumet and Fond du Lac counties is a mere shadow of its former self.

During the set line season of last winter fishermen complained that they caught so few game fish they were scarcely paid for their trouble in fishing. It is strongly contended that the game fish are losing ground before the onslaughts of the "rough" fish.

All varieties of bass, together with pike, pickerel, sturgeon, muskallonge, trout and catfish are known as game, and all others are "rough" fish. The most commonly known rough fish in local waters are the carp, sheepshead, dogfish and lawyers. The edible perch is in the rough class but anglers would like to see the perch protected, and will take steps toward putting it in that class. The rough fish are destroying the game fish.

A discussion has come up as to the best method of keeping down the rough fish. Some advocate the unrestricted use of hoop and gill nets; others place their faith in the use of certain nets at certain seasons, but there has been no definite action other than the State Fish Commission has planted some pike fry in the lake and the river.
